Everything Enago

What's New?

Trinka- World's Premier Academic & Technical Writing Assistant Is Here!

Enago recently announced the launch of Trinka, the world's most advanced AI writing assistant designed specifically for academic, scientific, technical, and business writing. Trinka is custom-built to focus on the complex nuances of technical writing and the subtle differences in various writing disciplines. Trinka goes far beyond basic grammar; it corrects complex language errors in elements such as sentence structure, word choice, and technical spellings that other tools do not, especially in academic and technical writing. Trinka understands the differences in writing styles among subjects and provides corrections specific to the subject of the paper. Trinka works in real-time to understand each word typed in the context of the writing and the subject.

WHAT OUR CLIENTS HAVE TO SAY

"I was very satisfied with both the meticulous editing and the speed of delivery"

"The editing quality was very poor. Some changes totally changed the meaning of the sentence and even in some cases, adding articles was ridiculous."

"I admit that my original text was awful, but some of the editing had changed the meaning of what I had intended and so I am considering to request the re-editing"

"This is my first time to use foreign language modification, I feel good, Thank you."

EDITOR PROFILE IN LIMELIGHT

Biological Sciences and Medicine

Armed with an undergraduate degree and graduate coursework in biosciences, this editor has worked as a freelance medical editor for more than 13 years. Besides being a longtime member of the American Medical Writers Association (AMWA) and the Board of Editors in the Life Sciences (BELS), she has completed many advanced courses in proofreading and editing.

Like what you see? We would love to feature you on our website. Please write to us at flexperience@enago.com and we will take it forward from there!

EDITOR SPEAK

MB1700, Australia

Since being approached by Enago to join their editorial team, they have been a pleasure to work with. The recruitment process was easy to follow, and Enago offered plenty of support along the way. I thoroughly enjoy working for Enago helping second-language English speakers publish their valuable research in top scientific journals.

Accepting, editing, and submitting assignments is made easy by Enago's exceptionally user-friendly platform and processes, and the team is always available on the Chat function to answer any questions. I really appreciate the flexibility and the lead times given, which make deadlines easily achievable. The rates are fair, the invoicing process is simple, and payments are always made on time.

REFER YOUR COLLEAGES/FRIENDS

We invite you to refer your qualified friends/colleagues to join Enago as our freelance editor.

We are currently hiring freelance academic editors (with editing experience of 2+ years) in the following subject areas:

- Physics
- Material Sciences and Engineering
- Computer/Information Sciences
- Medicine
- Dentistry

If your referral is hired, you will be eligible for a payout per hired referral. You can email us their resume at freelance@enago.com or ask them to fill the application form here:
