### What's New?

With [#SSP2023](#) over for another year, we're taking time to reflect on an insightful conference.

This year's theme of "Transformation, Trust and Transparency" truly resonated with us. The conference program was filled with thought-provoking keynote and breakout sessions that explored topics from research integrity to the application of new technologies in publishers' workflows.

Thank you to everyone who attended our industry breakout session on author experience in China, our poster sessions about open science, and everyone who visited our booth to meet the team and discuss our combined services. We look forward to continuing conversations over the coming weeks and months.

# WHAT OUR CLIENTS HAVE TO SAY

*"Thank you for everything. I can't thank you enough for your courteous and accurate work. We look forward to working with you again in the future."*

*"There were many points where I felt the corrections were inconsistent or inadequate. Is it possible to ask for a different proofreader?"*

*"Editor who proofread my manuscript, understood my intentions very well and I am very satisfied with the results. I am very impressed with the high quality of editing done and also intend to use Enago's services in future."*

*"Same article, went through standard touch-ups, then to advanced touch-ups, which were of less than stellar quality."*

## EDITOR SPEAK

---

MB1084, United States

I was contacted by a representative from Enago through the LinkedIn website. The recruiter was very quick to respond to my questions about the structure of freelance editing with Enago. The initial paperwork was clearly explained and the test assignment was reasonable.

Once I began work for Enago, I received my first assignment within a few days. The frequency at which I received assignments increased after my first month with Enago and further, after a few more months, I was added to the pool of freelance editors with a secondary contract that guarantees I receive a set minimum of assignments each month. The Enago team is very responsive to any questions I may have about deadlines or specific content within assignments. The assignments range in size as well as in the effort needed to correct the document. However, the vast majority of assignments are straightforward, and the Enago Handbook clearly reviews the recommended editing style. I am also provided helpful feedback on my completed assignments every month or so. The payment schedule is consistent and simple. Invoices are submitted at the start of every month and payment is received near the start of the following month.

Overall, I am very happy with my decision to work as a freelance editor for Enago and anticipate a long and fruitful working relationship with this great team.
